

Please don't allow anything to infer with the covearge of the K-Love network. This is such an important radio station to this area! It is so nice to hear "clean" music and not have to be imbarressed by what is on the air ways! This is one of the only stations in this area that plays this type of music. It is such a breath of fresh air! It would be quit a disservice to the area to lose this station!
